

## How to set the BookDrive Capture dual mode with VMware

### PC Specification:

OS	Vista, XP SP2
Memory	2GB or more
Hard Disk	50GB or more

### Installation:

#### Master:

1. Install the BookDrive Capture (master PC).

#### Slave:

1. Installed VMware and install Vista or XP (recommend) into VM.

VMware configuration:

Memory	256MB(XP) ,1GB(Vista)
Hard Disk	10GB or more
Ethernet	Host-only(without cable), Bridged(LAN)

2. Install a Capture Slave to VM's OS.
3. Check the VM's OS IP address at the Capture Slave or below.
  - Windows + R ->cmd->ipconfig and remember the IP address.
4. Enter the IP address into BookDrive Capture -> Slave Connection.

### How to connect both cameras

Connected are both cameras to PC with USB. (Cameras turn OFF).

#### Master:

Handle the BookDrive Capture and turn ON right camera. Please wait done.

#### Slave:

Handle the VM and turn ON left camera. Please wait done.

Enjoy!
