Non-Contact Temperature Check

For Low-Traffic Places Such As

Small and medium
-sized offices

Restaurants

Cafes

Pubs

Fever Screening Non-Contact thermometer

- Designed for measuring human body temperature.
- AI Face Detection
Temperature detection range 30°C-45°C (86°F-113°F)
- Accuracy level within $\pm 0.5^{\circ}\text{C}$ ($\pm 1^{\circ}\text{F}$) without needing additional accessory. This level of accuracy can be used to screen elevated temperature which has to be confirmed by a secondary regular thermometer.
- Provides audio alarm when detecting persons with normal and elevated temperature.
